

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP15-525-000]

UGI Sunbury, LLC; Notice of Availability of the Environmental Assessment for the  
Proposed Sunbury Pipeline Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Sunbury Pipeline Project (Project), proposed by UGI Sunbury, LLC (Sunbury) in the above referenced docket. Sunbury requests authorization to construct and operate a natural gas pipeline facility in Snyder, Union, Northumberland, Montour and Lycoming Counties, Pennsylvania. The Project would provide 180,000 dekatherms of natural gas per day to the Hummel Station Generation Facility in Snyder County, Pennsylvania.

The EA assesses the potential environmental effects of the construction and operation of the proposed Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed Project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Department of Transportation's Pipeline and Hazardous Materials Safety

Administration (PHMSA) and The Pennsylvania Fish and Boat Commission (PFBC) participated as cooperating agencies in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

Sunbury proposes to: construct and operate a 34.4-mile-long pipeline from the Transcontinental Gas Pipe Line Company LLC (Transco) and MARC I Pipeline operated by Central New York Oil & Gas Company, LLC (CNYOG), both in Lycoming County, to the proposed Hummel Station Generation Facility.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. In addition, the EA is available for public viewing on the FERC's website ([www.ferc.gov](http://www.ferc.gov)) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at:
